

AWAKENING FAITH AND FLOURISHING

AT THE INTERSECTION OF CHURCH AND UNIVERSITY

Two-Year Cohort

A 24-month immersive journey for church teams to reimagine university ministry through monthly gatherings, peer church pairings, coaching/consulting, and annual retreats. ***Cost:** \$750/semester + travel

Academic Year Pilot Program

A two-semester learning journey following the academic calendar. Church teams learn Vinery frameworks in the fall and launch a tailored university ministry pilot in the spring.

***Cost:** \$350/semester

Coaching

Personalized coaching and consulting to help you address obstacles and establish fresh momentum by helping you discern and accomplish your unique goals for church based university ministry. ***Cost:** \$150/session

*Scholarships available

About The Vinery

The Vinery, a ministry of Mere Christianity Forum, helps churches flourish in ministry with neighboring universities by reaching faculty, staff, students, alumni, and community partners in the name of Jesus. We equip university-proximate congregations with practical tools, coaching, and collaborative networks to build thriving, inclusive university ministries. Choose from our 2-Year Cohort, Academic Year Pilot, or Coaching, based on your unique context. Through our partnership with UKirk, all three offerings are available at special reduced UKirk/PCUSA pricing.

Testimony

The Vinery has been an incredible experience in guiding our congregation through an intentional process of deep listening and purposeful design so that we can better connect and support our university neighbors. This program is critically needed for university churches to live into their identity and express their historical commitments in the present day. Churches that seek to create just, vibrant, and inclusive university ministry need guidance and The Vinery brings excellent leadership to this work.

Rev. Austin Schmidt, UCC Fort Worth
